**The following is a list of high-performing Louisiana SNFs in the Peoples Health network.**

High-performing status is determined based on a combination of the facility's:

- Performance outcomes measured within the Peoples Health membership
- Low hospitalization rates, including readmissions within 30 days of discharge
- Appropriate lengths of stay
- Collaboration with Peoples Health clinical staff

All these components contribute to providing the best support for patients' care.

**We ask that you first consider one of these facilities when discharging a Peoples Health patient from your hospital to SNF care.**

**However, we know facility choice is a coordinated effort between the patient and your facility for what best meets the patient's needs.** There are other skilled nursing facilities in our provider network. To view a complete list, visit [peopleshealth.com/searchtools](https://www.peopleshealth.com/searchtools).

## Questions?

Contact Melanie Toups, clinical director of post-acute programs, at **504-862-7339** or [melanie.toups@peopleshealth.com](mailto:melanie.toups@peopleshealth.com), or contact your Peoples Health representative.
