

In-Home Wound Care Services

NURSE PRACTITIONERS PROVIDING HANDS-ON WOUND CARE

Designed to address the needs of insurance plan members with non-healing wounds, RestorixHealth's in-home wound care services provide comprehensive wound care in the convenience and comfort of the members' home.

RestorixHealth's in-home wound care services achieves better patient compliance, resulting in members being *healed* and *discharged* from care faster.

We treat patients who have any type of wound OR who are currently receiving other wound related therapy, including:

- + Pressure ulcers
- + Diabetic ulcers
- + Non-healing surgical wounds
- + Venous stasis ulcers
- + Arterial ulcers
- + Negative pressure wound therapy (wound vac)

By offering in-home wound care as part of your member care strategy, payers can expect to reduce healthcare expenses with direct and indirect savings.

- 1** Delivering comprehensive wound care in a lower-cost environment
- 2** Reducing wound-related patient visits to emergency departments and urgent care facilities
- 3** Reducing wound-related admissions to hospital, skilled and long-term acute care facilities
- 4** Reducing patient transportation costs
- 5** Eliminating the overlap of multiple specialists treating patient for same wound
- 6** Establishing care delivery programs with national scalability

If you have a patient who can benefit from comprehensive wound care, call, fax or email a referral today.
